Friday.

The tangible wealth of the south is estimated at more than eighty billions of dollars, Julius H. Barnes said.

Mr. Black said it may be well to consider "our fundamental situation" at this time by reason of the closing of a number of southern banks.

Mr. Barnes was in Atlanta to attend a meeting of the board of directors of the United States Chamber of Commerce, here to obtain first-hand information of business conditions in this section. He is chairman of the board.

Mr. Black in calling attention to the billions in resources of the southern banks said:

"There should be confidence that fundamentally our banking situation"

and their products yield a cash return twice as large as our agricultural products," Mr. Black said. "Our problem of unemployment is probably less acute than in any other section.

"Our agricultural badks have large-ly liquidated their indebtedness to us and to their city correspondent banks. Our city banks have very large resources and are abundantly able to handle the financial problems of the south."

The development of the south during the last decade was termed "phenomenal" by Mr. Barnes in his statement. Picked Up on Coastal Highway, South of Savannah In Dying Condition 22 Days Ago.

SAVANNAH, Ga., Nov. 21.-(P)-Three persons formerly connected with the Florida state hospital at Chattahoochee tonight identified a body in a local mortuary as that of Frank Me-Dowell, escaped insane slayer.

The man they identified was struck lown on the Coastal highway about 20 miles south of Savannah, by an automobile on October 31 and left lying to Savannah unconscious, and placed in a hospital. He remained in a semicoma until Wednesday, when he died, without giving any definite or authentic information about himself.

The body was viewed today by W T. Spell, Jr., D. M. Spell and Mrs. D. M. Spell, all of whom are convinced that the corpse is that of McDowell. W. T. Spell, Jr., says he was connected with the Florida state hospital for about a year, as an attendant, and that during that period, knew Mc-Dowell well. He is positive that the body is McDowell's, as is D. M. Spell, who was connected with the Florida hospital as an attendant for about three years. Mrs. D. M. BEAVERS NOT TO QUIT. COUNCIL CHIEFS SAY

Ragsdale and Key Also Deny Rumor of Retirement.

Any knowledge of a reported move to retire Chief of Police James L. Beavers for "the good of the service," to elevate Chief of Detectives A. Lamar Poole to the chief's desk and then to retire Poole on January 1, 1931, with a chief's pay, was denied Friday by every member of the council police committee, Mayor I. N. Ragsdale and

Alderman J. Charlie Murphy, police committee chairman, declared there are only three other scheduled meetings of the 1930 committee.

"Our committee surely would have to work fast to do all that," he said. "It is preposterous. I would never vote for such a proposition. "It has never been mentioned to

"The first I ever heard of the matter was today," Mr. Ragsdale said Friday. "I do not believe the committee would undertake such a thing."
"Such a move would meet with failure," Mr. Key stated.

He said he believed it was only a wild rumor and predicted that if it were started officially the committee would not vote for it.

Chief Beavers said; "I am going to conduct the affairs of the department the best I can. I have nothing to say about the rumor."

Chief Poole declared; "My chief object at present is catching hold-up men and burglars. I do not contemplate retirement or being chief of police."

The contributions were requested in a resolution from the Savannah district conference held in Sardis, Ga., last May. The district conference went on record as taking official recognizance of the plan to erect a memorial to Dr. Allen.

The resolution said Dr. Allen was born in Burke county in 1836 and "no action commemorating that fact has been officially undertaken by an incomplete of the plan to the fact has been officially undertaken by an incomplete of the plan to the fact has been officially undertaken by an incomplete of the county in 1836 and "no action commemorating that fact has been officially undertaken by an incomplete of the county in 1836 and "no action commemorating that fact has been officially undertaken by an incomplete of the county in the co

It said since the Burke Light Infantry post of the American Legion was engaged in restoring old Church, an ancient Methodist edifice on the Savannah highway, six miles from Waynesboro, it was deemed wise to place a memorial to Dr. Allen in that church.

charch.

The memorial, the resolution said, would not only commemorate the fact that Dr. Allen was a native of Burke county but would also memoralize "his Christian virtues and religious zeal."

It was brought out before the conference that Dr. Allen was born some distance from the church, but because of its being restored and its historic significance the memorial should be placed there.

The conference was told Bishop Warren A. Candler had been requested to write the inscription for the memorial and had already consented to be present at the unveiling, the date of which has not yet been set.

WESTBERRY ALIBI

VALDOSTA, Ga., Nov. 21 .- (AP)-Thirty-one defense witnesses swore to-day that Austin Westberry was in Manatee, Fla., on August 21, 22 and 23, during which time he is charged with having slain W. H. Browning and his wife at a filling station near here.

Following the parade of cumulative evidence in support of an alibi which has been Westberry's chief defense, his counsel asked for and was grant-ed a recess until Saturday morning. The attorneys said the interim would

The attorneys said the interim would be used in planning what evidence it would be necessary for them to present in an effort to shorten the trial. Today's witnesses included O. C. Jones, bookkeeper and paymaster at the Manatee Crate Factory, who declared he handed Westberry his pay envelope there on the evening of August 23. Others were foremen of various departments and other employes of the concern. Several of the officers of the company brought with them records and pay rolls which they said showed Westberry had been at work on the days in question.

showed Westberry had been at work on the days in question.

Others swore they knew Westberry and had talked to him on those days, identifying the dates by events which they said served to keep them in mind. The state announced plans to counter the alibi evidence with rebuttal testimony, and should the defense offer sur-rebuttal, court officers said, there is little chance of the case going to the jury before Sunday.

The alibi testimony followed Westberry's unsworn repudiation of a purported confession. The defendant said
the confession was wrung from him
by threats of the "electric chair" and suggestions that a confession might "save my life."

ment code to permit the sale of light wine and beer under government supervision.

In advocating repeal of national prohibition, Mr. Crabbe said he favored leaving the matter of control to the states.

In advocating modification of the state enforcement code, he said he favored "modification rather than nullification." He said he opposed return of the open saloon.

Still advocating temperance, the former dry leader said he does "not feel that the present prohibition law has been respected by the people or enforced by public officials. It has been and is being practically nullified."

"I'm still an advocate of temperance," Crabbe said. "I am, therefore, opposed to the complete abolition of laws designed to curb the traffic and use of liquor. But I am firmly convinced there should be some modification of the existing laws."

Crabbe explained that in order to obtain modification of the state enforcement code, it would be necessary to repeal the national prohibition in force, state laws could not conflict with the national law, Modification of the enforcement law to meet the wish of a majority of the people would "command the respect of the people," he said.

"The present prohibition laws have the people would "command the respect of the people," he said.

The presence of mind of an ambulance attendant from Cumming, Ga., possibly saved the life of V. C. Frost, 34, 'of 149 Washington road, East Point, Friday night, according to attaches at Grady hospital, where he was taken following an automobile crash five miles from Cumming on the highway between that point and Atlanta.

The attendant held the jugular vein of Fros all the way to Atlanta, thus preventing him from bleeding to death, it was said. The vein was severed. The accident occurred when a car driven by Frost collided with a truck which, according to Frost, was traveling on the wrong side of the road. Mrs. Frost, who was riding with her husband, also was given treatment at Grady. She was cut about the forebad, arms and legs. The ambulance which was summoned to the scene, was that of Shadburg & Moore, of Cumming, Ga.

In another accident reported Friday night, Mrs. R. F. Hunt, of 450 Sixth street, was treated at Grady hospital for a sprained left ankle and minor bruises after being struck down at Hemphill avenue and Sixth street by an automobile driven by R. H. THE WORLD'S WINDOW

BY PIERRE VAN PAASSEN

Death is not a subject of modern meditation any longer, but it is still a subject of conversation, at least in France. The whole year around people talk of business, literature, the cuisine and religion. But one day a year they talk and think of death. This happens on the Day of the Dead. Is it a had practice? Perhans. The sion of that body early next year, first thing that death makes one think of is life. A poor and monotonous

> which it accepts.
>
> No school of thinkers has ever raised itself against death. And death is really no more extraordinary phenomenon than birth. Nobody knows after all, which of the two is a beginning and which an end. The ancients, some of them, familiarized themselves with death to a point where they did not fear it any longer. We moderns whose lives are constantly menaced by our inventions, end up by pushing away the fear of death simply by not thinking of it at all. We close our eyes to death by opening them wide to the amazing spectacle of life around us. In old days death came upon people slowly with face uncovered so to speak. Today it travels at the rate of a hundred miles per hour; it hides in silk threads and flies noiselessly. As a physical circumstance death is no more to be dreaded than sickness. There are sweet deaths compared to cruelly painful convalues compared to cruelly painful conva-

lescences.

Animals are spared suffering in civilized countries when death or suffering seem inevitable. But men's suffering seem inevitable. fering is always prolonged, and as long as possible, by the means of science. It's an accepted rule, a routine almost. There are men, and among them the learned dean of St. Paul's, Dr. Inge, who believe that the day will come when science will turn in another direction and will not unnecessarily proper sufficient by the second of purchase of campaign munitions table death. Dear Dr. Brady: I find your column from day to day both interesting and instruc-tive. I have had an experience which I believe might be useful as

Early last Saturday morning, temperature 36 degrees, my wife and I set out on a fishing trip, riding in a sedan, with the window on her side open about an inch, all the other windows closed. We had just turned off the main highway onto a dirt road near Niagara on the lake. when all of a sudden I realized when all of a sudden I realized that something was wrong with me. I drove on for perhaps 200 feet and stopped. From the top of my head to feet, arms and hands I had a peculiar feeling, could not move from seat, and was covered with perspiration. My wife opened the doors, fanned me, gave me a drink of cold water, wined my face, neck and water, wiped my face, neck and hands and tried to feel my pulse. After a time I had a vomiting spell, and in half an hour I was able to proceed, but I did so with caution. I learned afterward that my wife had been similarly though not so se

My dear Louise:

This morning's paper tells about a ship helpless in the middle of th Atlantic because something happened to its rudder. It must wait for a tow, though it has power enough of its own, for a ship without a rudder never knows where it is going. There's an idea for you to chew your cud over. At approximately the same time the former Decatur schoolboy was trying to convince a Pinellas county jury at Clearwater that his sins were "rising on the wings of a snow-white dove," Nathan Leopold was stating to a Chicago jury that his own were "floating upward on the wings of Pegasus." Other atrocities involving adolescent characters followed in their wake, ending in 1926 with a widespread sweep of student with a widespread sweep of student and scholastic suicides which awed the

A weird strain of so-called religious A weiru strain of so-called religious insanity was woven throughout the four slayings of the then 19-year-old Decatur boy. Incoherent statements and confessions made following his ar-rest on February 20, 1924, by Pinellas county authorities dealt vaguely with "blasphemies" and "anti-Christ" moments of revulsion which he contended he suffered as the date February 19 approached each year. In brief, all of the young killer's stories centered around a common explanation upon which his attorneys based their fense on a plea of sanity—that he labored under the delusion that he had committed a sin against divinity at an early age and that he was obsessed by the idea that upon the antiversary of the commission of the hallucinatory sin he was impelled to seek "atonement" by slaying some member of his family.

Exactly a year later Clearwater police were called to investigate the murder of Mr. and Mrs. McDowell, who had been shot to death as they slept in their home. The son, Frank, exhibited a lump on his head, explained that he had "heard a noise during the night" and had been slugged while investigating. A day later he con-fessed when officers confronted him with a typewritten note, written or a heart-shaped piece of paper, the con cluding words of which read: "... and it shall be the end of the third year of sin in me and the end of mine sin before God, the Father, Son and Holy Ghost, Amen."

INDIA FINDS HOPE IN M'DONALD SPEECH

LONDON, Nov. 21.—(P)—Ramsey MacDonald, in words which rang with hope for India's restless millions, today ended the five-day debate which has set the momentous Indian round table conference in motion.

Welcoming the almost unnnimous opinion of India's spokesmen that the federal system of government is their country's goal, the prime minister once more pledged Britain to the principle of responsible self-government in India as in other units of the British

din as in other units of the British

dia as in other units of the British commonwealth.

The great question during the coming weeks now is how—and more important to the Indian delegates—when that goal is to be achieved.

There was an atmosphere of tense expectancy in St. James' palace when MacDonald rose to speak, and the Indian delegates hesitated even to applaud lest they miss one of his words. He told them Britain never would welch on any of her pledges and he referred specifically to the Chelmsford declaration of 1917 pledging the development of self-government institutions in India.

Mr. MacDonald in concluding outlined the tasks which remain before

Chevrolet Officials Sound **Optimistic Note for 1931**

M. E. COYLE.

New Business Peak Is Forecast for 1932 by M. E. Coyle, Vice President of Motor Company.

General business in 1931 will be satisfactory and much larger in volume than in the current year. A new peak business period will be reached in 1932. This was the prediction of in 1932. This was the prediction of M. E. Coyle, vice president of the Chevrolet Motor Company, in an address before 350 Chevrolet dealers of the Atlanta area at the Biltmore hotel Friday. The automobile business will follow this same general tendency, he declared.

"The confidence of Chevrolet executives in a much brighter outlook next year is based on extensive surveys conducted in all parts of the country," said Mr. Coyle. "The results were

conducted in all parts of the country, said Mr. Coyle. "The results were so gratifying that we decided to start our winter activities two months earlier than usual. We are now prepared to undertake operations about December 1, which will greatly increase the pay roll of the plants. Night shifts will then begin work, and in the casting and forging plants any excess over current needs will be stored in anticipation of a demand in excess over current needs will be stored in anticipation of a demand in the spring greater than the capacity of the plants on a normal working

tion of unemployed, and the whole program of the Chevrolet Motor Company is spar is intended to relieve unemployment," said Mr. Coyle.

"Motor company executives recognize that the automobile industry operates on a three-year cycle, one bady year, one recovering year and one year in which new production records are set. Last year was the record year, and this year the industry entered a new cycle with a year of depressed business.

Mr. Coyle's prediction of increased business during the new year was reiterated by R. K. White, advertising manager of the company, in an address before the dealers and their associated bankers at the Erlanger theater in the afternoon.

"The most encouraging sign for greater business activity in all lines during 1931 is the low inventories of today. Merchandise stocks of every type are unusually low. For instances when the Chevrolet Company ordered canvass banners to decorate dealers' showrooms throughout the country in connection with the announcement of the 1931 models, there was not enough of this material on hand in the whole country to fill the order. Two mills in the south were opened, other mills began working overtime, and when finally the material was and when finally the ma county for the whole country to fill the order. Two mills in the south were opened. The mills began working overtime, and when finally the material was ready, it was necessary for the company to open two shops to have the hanners painted. This is true of practically all lines and as the demand for various kinds of commodities keeps on steadily increasing it is easy to see the vast amount of manufacturing that will be required to build up the supply.

"In spite of general conditions during 1930 Chevrolet dealers all over the country have come through the year with a nice business. The experience has been beneficial to us allowed are keener, better businessment Obstacles and adversity has improved ears on hand than if 1930 had been a normal business year. Dealers throughout the southeast have had the best cleanup of old stocks in their history.

"The fact that 100 per cent more people have visited Chevrolet show-rooms to see our new 1931 car than was the case in 1930 is another indication of better business during the new year. The public is interested in buying. People are getting ready to go back to their normal mode of living."

than many a car you see on a cold winter's day. When a car spouts steam in freezing weather, the chances are it has a frozen radiator. Either that or a nearly empty one.

Avoid that costly hazard this winter, with a single filling of Eveready Prestone, the ONE-SHOT anti-freeze. It gives you lasting peaceof-mind!

Passes rigid scientific tests

A motor authority, the Contest Board of the American Automobile Association, reports, "Our tests show conclusively that Eveready Prestone gives complete protection against low temperatures, does not corrode, will not boil off when used in an automobile, is odorless, non-inflammable and will serve as an anti-freeze with unimpaired efficiency throughout the coldest winter season."

Constant research by the Union Carbide and Carbon Corporation laboratories has further increased the efficiency of Eveready Prestone. This year it is actually superior to the Eveready Prestone which more than a million motorists used to their complete satisfaction last year. So that you may easily identify Eveready Prestone, it is now green in color.

Economy Plus Protection

The economy of using Eveready Prestone lies in these two facts: 1. A single filling will last all winter, irrespective of temperature-fluctuations. 2. Eveready Prestone is an undiluted antifreeze. Compared with other anti-freezes, a considerably smaller quantity is required to give your car complete all-winter protection. For example, if the radiator capacity of your car is three gallons, you can get complete protection from early fall to late spring for a cost of \$2.50 to \$7.50, depending on whether you live in a moderate or extreme climate.

Go to your dealer or garage-man, before he gets swamped with work during the first cold snap. Have him prepare your car for winter, taking the simple precautions necessary to make the cooling-system water-tight.

You can put Eveready Prestone in today. It's always in tune with the temperature.

Tune in the Eveready Hour, every Tuesday evening at nine (Eastern standard time) over the N. B. C. network.

Total of \$90 Obtained by Robbers Friday After-

Two pairs of daylight bandits were active in Atlanta Friday afternoon, obtaining \$90 as the result of two holdups of stores on Marietta street and North Boulevard.

The first robbery reported to the police was at 12 Boulevard, N. E., where Henry O. McLendon, Jr., proprietor of a meat market, was held up by two negroes and robbed of \$60. He told the police that the pair, attired in overalls, came into his market ostensibly to make a purchase. While he was filling their order, they both produced pistols and robbed his till, he said. till, he said.

till, he said.

The second robbery occurred a few minutes later, shortly before 5 o'clock. Two young white men entered a Rogers grocery at 911 Marietta street, and after forcing the manager, C. S. Gaines, of 3185 Stewart avenue, and his assistant, H. C. Smith, of 716 Addie street, into a rear room at the point of pistols, they robbed the cash register of \$30. It is thought that they escaped in an automobile.

Caught in the act of burglarizing the Mitchell Variety store, 942 McDaniel street, two negroes fled, leaving a large motor car in which they had been loading merchandise removed from the store. The pair were frightened away from the store when shots from pistols of Patrolmen S. D. Vaughn and E. P. Roberts barely missed them.

missed them.

The policemen continued to fire as the negroes fled but both patrolmen said they believed none of their bullets hit their mark.

The automobile, which contained about \$100 worth of stolen merchandise, was taken to police headquar-

ters.

Incy Maulsby, negro maid, reported to the police Friday that she was held up and cobbed by two white men who were riding in an automobile. The maid said the bandits pointed a pistol at her and took her purse, co-taining \$7, as she neared her place employment, 840 Briarcliff road.

Just, the biologist, and Dr. Charles Johnson, in social studies, take high place among scientific scholars. In philanthropy, one of the most significant, facts, of recent years is that James Burras, born a slave, left a fortune of \$122,000 to his alma mater, Fisk University.

"In music and the arts, the ne-

groes' gifts are well known. Not only has the race made America's distinc-tive contribution to music—spirituals and jazz—but such individuals as Roland Hayes, Paul Robeson, Rosa-mond Johnson and Nathaniel Dett have attained distinction as composers and artists. On the stage, Charles Gilpin, Florence Mills and the whole cast of the remarkable drama, "The Green Pastures," have brought fresh and vivid contributions to American expression. H. O. Tanner is one of the most distinguished members of the American colony of artists in Paris, and Aaron Douglas and Augusta Sav-age, in painting and sculpture, are members of a growing school in America. James Weldon Johnson and W. E. B. DuBois are being pressed or leadership by an increasing num-eer of younger writers exemplified by Countee Cullen, Claude McKay and Langston Hughes

This appeal in behalf of the Atlanta Community Chest is directed particularly to you as the natural allies of all work that is designed to help the helpless.

To the broad campaign of human welfare embraced in the Chest

plan of supporting 38 agencies, everybody can give something. Everybody who lives in health and comfort can help in some degree, great or small, according to her purse and resources. Every woman can and should do her part, because helpfulness and service is everybody's It is impossible to visit every home in the short space of our can-

vass, but please do not wait for the campaign worker to call upon you. The need exists. Will you not do your part by mailing or bringing your contribution to the Community Chest campaign head-quarters in the William-Oliver building? The red feather that you will receive is going to be surely the prevailing style of the month.

I looked up, startled.
She nodded.
"Didn't you ever guess? Mrs. Lestrange is my mother. She is—is dying, you know. She wanted to see me, and so she came down here under an assumed name. Dr. Haydock helpedher. He's a very old friend of hershe was keen about her once—you can see that! In a way he still is. Men always went batty about mother. I believe. She's awfully attractive even now. Anyway. Dr. Haydock did everything he could to help her. She didn't come down here under her own name because of the disgusting way people talk and gossip. She went to see father that night and told him she was dying and had a great longing to see something of me. Father was a beast. He said she's forfeited all claim and that I thought she was dead—as though I had ever swallowed that story! Men like father never see an inch before their noses!

"But mother is not the sort to give in. She thought it only decent to go to father first, but when he turned her down so brutally she sent a note to me and I arranged to leave the end of the footpath at a quarter past six. We just had a hurried meeting and arranged when to meet again. We left each other before half-past 6. Afterwards I was terrified that she would be suspected of having killed father. After all, she had got a grudge against him. That's why I got hold of that old picture of her up in the attic and slashed its face. I was afraid the police might go nosing about and get

I was afraid the police might go nosing about and get hold of it and recognize it. Dr. Haydock was frieghtened, too. Sometimes, I believe, he really thought she had done it! Mother is rather a—desperate kind of person. She doesn't count consequences."

LAST INSTALLMENT.

The trial of Lawrence Redding and Anne Protheroe is a matter of public knowledge. I do not propose to go into it. I will only mention that igreat credit was reflected upon Inspector Slack, whose zeal and intelligence had resulted in the criminals being brought to justice. Naturally, nothing was said of Miss Marples share in the business. She herself would have been horrified at the thought of such a thing.

Lettice came to see me just before the trial took place. She drifted through my study window wraithlike as ever. She told me then that she had all along been convinced of her stepmother's complicity. The loss of the yellow beret had been a mere excuse for searching the study. She hoped against hope that she might find something the police had overlooked.

"You see," she said in her dreamy voice, "they didn't hate her like I did. And hate makes things easier for you."

Disappointed in the result of her search she had deliberately dropped Anne's earring by the desk.

"Since I knew she had done it, what did it matter? One way was as good as another. She had killed him."

I sighed a little. There are always some things that Lettice will never see. In some respects she is morally color blind.

"What are you going to do, Lettice?" I asked.

"When—when it's all over I am "Lettice will never to the golf links. That will put her off the scent—and it's quite true because I left my yellow pullover there and the sind of our own. And, Len, I've decided that for our own. And, Len, I've decided that now I'm going to be a real wife and mother (as they say in books). I must be a housekeeper, too. Then she drew away suddenly.
"Bother! Here's Miss Marple coming. Don't let her suspect, will you? I don't want every one offering me cushions and urging me to put my feet up. Tell her I've gone down to the golf links. That will put her off the scent—and it's quite true because I left my yellow pullover there and I want it."

Alabama Opponents Rate .485, Tulane's Only .375---Wayward Settles Issue

Little has been written about the record Wayward Boye made as a halfback at Slippery Rock College for the simple reason that there is very little to write.

Good old Wayward, modest to a fault, has never talked about his deeds on the gridiron, yet the season should not be allowed to linger and die without mention

Wayward, after three years of intensive study at Slipper Rock, including two summer school sessions, became a fullfledged sophomore and eligible for the varsity team. As there were only three men out for the team who could run the hundred in less than 14 seconds, wind and tide favoring, Wayward was assigned the left halfback role.

He was a star in signal drill, a meteor in scrimmage and a comet in the regular games. His name was on every lip. (girl babies over 16 years of age) cried for him. He carried the ball in the first seven games of his sophomore year 114 times and made 115 touchdowns. The extra touchdown came when one of the other backs fumbled into his arms on the afternoon. goal line. Nothing could stop him.

ENTER THE VILLAIN.

However, the day before the big Thanksgiving Day game at Lickskillet Tech, Wayward passed a third string substitute without speaking. Angered, the boy told all in a letter to the coach of the Techs.

One coach was too many for Wayward on the football field but it took six coaches and a set of answers, written on tracing paper and carried rolled in his vest pocket, to get him through he most elementary examination.

THE BLOW-OFF.

The day of the big game, Slippery Rock received the kickoff. The fullback caught the ball on his goal line and by a furious sprint brought it up to the six-yard line. On the first play Wayward cut back over center for 94 yards and a touch-Could nothing stop him?

The captain of the Techs elected to kick again. The

Techs went into a huddle before the kick-off. They fum-

bled under their jerseys as if taking out something they had concealed there.

Wayward received the kick-off, laid the ball on the ground and nonchantly tied his shoe strings. Then he picked up the ball, adjusted it carefully under his arm, took off his helmet and threw it out of bounds so the gesture would be corn but to and threw it out of bounds so the gesture would be seen by the press box and started off for his touchdown.

But the Techs were waiting for him on the 50-yard line. They had not moved after the kick-off. They stood there in a scattered line, hands behind their backs.

Wayward struck his touchdown stride and began kicking yard lines behind him. As he neared the 50-yard line he in-

"Wait until you see the whites of his eyes," warned the Tech

From behind his back each Engineer produced a school book. Some had geographies, others third readers, still others histories. One had a speller. They opened these books right before Wayward's eyes.

With a startled scream Wayward fell heavily on the line. The Techs pounced on him. The books had stopped him when human hands had failed.

On the first play Wayward's signal was called for an end run. But the enemy right end stood there with open book and Wayward did not reach the line of scrimmage. Twice more Wayward tried but the books stopped him. So Slippery Rock punted.

Meanwhile Wayward was replaced by the third string substitute whom he had snooted the day before. Slippery Rock lost 13 to 7 and Wayward was fired from school the next day for "academic deficiencies."

WAYWARD'S FORTE.

Wayward, however, was good in arithmetic.

It took him less than two years to master Roman numerals. He could add and subtract like the most skillful embezzler and could multiply and divide with all the facility of a born loan

So Wayward's mental disqualifications should not be held against him in considering a mathematical comparison between the schedules of Tulane and Alabama herewith produced to broaden the pleasant discussion of relative difficulty of schedules and performances to date of the two front runners in the championship race.

Wayward figures that the best way to compare the achievements of Alabama and Tulane to date is to consider the strength of their conference opposition by measuring conference games won and lost by those opponents. The comparison is fair since neither team has been defeated. Here 'tis:

TULANE.		ALABAMA.			
Won.	Lost.	Won.	Lost.		
Georgia Tech 2	2	Mississippi 0	5		
Miss. Aggies 2	2	Sewanee 1	4		
Auburn 0	5	Tennessee 4	1		
Georgia 2	1	Vanderbilt 3	2

		Florida 3	1		
		L S. U 2	3

Total 6	10	Total	18		
Percentage	.375	Percentage	.485		

other words Tulane's conference opponents have an average record of .375 while Alabama's have an average rec-

Tulane has beaten but one team with a conference record better than .500; that one is Georgia. Alabama has beaten FOUR teams who have won more than half

Wayward figures the Alabama accomplishments in the conference championship race stand far over Tulane's. However, Wayward is just a mental marble rolling in the roulette wheel of life and is liable to stop anywhere.

Wayward continues for the fun of it and discovers that Vanderbilt's conference opponents have an average of .560 to date, Georgia's have an average of .556, Georgia Tech's have an average of .541, and Auburn's

If that does not settle it all, Wayward is willing to try calculus and aspirin.

PURPLE DEFEATS G. M. A., 7 TO 6, IN HARD BATTLE

Extra Man on Field When Kick Is Blocked; Point Allowed.

By Roy White.

A spectacular 60-yard dash, followed by a drive of 14 yards to a touchdown and an extra G. M. A. player on the field at the time of the try for extra point, gave Boys' High a hard-fought 7-6 victory over G. M. A., their ancient rivals, at Spiller Field Friday afternoon.

The extra point defeat eliminated G. M. A.'s chances to tie Tech High for the city prep title and gave the Smithies undisputed claim to the city championship bonors. It also gave Tech High an excellent chance to get into the play-off for northern division honors in the G. I. A. A.

rs in the G. I. A. A.

Late in the fourth quarter with G. M. A. leading 6 to 0. Boys' High received the ball on its own 26-yard line. Leke Done-hoo, wigsled his way through a heavy G. M. A. line and cut for the sidelines and a run of 60 yards. He was 20 yards ahead of every G. M. A. player, but Bill DeGarimore, G. M. A., brought him down on the 14-yard line. Luke Mizell then rammed the line for 10 yards, placing the ball on the Cadet four-yard stripe. Mizell made one yard in three tries. Both teams were offside and Boys' High drew a five-yard penalty with still a down left and Donehoo raced around his own right end for six yards and a tie score.

It was another of those hard-fought Boys' High-G. M. A. battles and so tense was the strain that a dozen offside penalties were called and nu-merous others inflicted for infraction of rules. Three players were ejected from the game for unnecessary roughness. The penalties amounted to 150 yards.

Both teams fought with all the reserve energy they had. G. M. A. used its power in the first quarter to score 6 points and then with its back to the wall in the fourth period and three minutes left to play forced Boys' High to use six plays to gain only High to use six plays to gain only 4 yards and a touchdown.

Boys' High played a cautious game mas used. It seemed that Boys' High or two who may be thrown into the held out until the last and then was used. It seemed that Boys' High crashed through. For three quarters

MADISON SQUARE GARDEN, now York, Nov. 21.—(P)—Billy Petrolle, rugged, clouting veteran from the hills of North Dakota, turned in the ultimate in surprises for the fight faithful tonight by hammering Jimmy McLarnin, the clouting Celt, into one of the worst defeats of the Irishman's spectacular career.

A crowd of 12,500, banner throng in these days of unemployment, bounced around in their seats in vociferous amazement as Petrolle, granite-chinned and relentless as a maddened bull pup, smashed the class of the welterweights about the ring for ten full rounds, dumped him in the resin twice for counts of nine in the fourth session and ran away fresh and eager with the unanimous decision at the end of the battle. It was one of the most exciting and bloody battles the Garden ever has seen and McLarnin at the close was a fearful sight.

MERCER HOPES TO UPSET BIRDS IN FINAL CLASH

Oglethorpe in for Fight as Macon Club Closes Season.

By Walter Wilkes.

Staff Correspondent.

MACON, Ga., Nov. 21.—If plain, old-fashioned spirit and determination count for anything in football—and who can doubt it in view of the startling surprises with which this perverse season has abounded—the stormy Petrels of Oglethorpe University are in for the time of their young lives when they tackle Mercer's Bears in a home-coming game here tomorrow afternoon at 2:30.

This is the final range of the season

row afternoon at 2:30.

This is the final game of the season for Coach Lake Russell's charges, and with the whole city of Macon behind them, they are out to scamper under the wire in the proverbial blaze of glory. If only Oglethorpe can be turned back the season will have been a success and the five defeats suffered—in particular, the totally unexpected reverse administered by little Carson-Newman last Saturday—will be forgotten and forgiven.

Mercer has one of those in and out teams which have been doing such an extensive business this fall, and after the exhibition last week they are due to be decidely "in" this Saturday.

The players have been drilling until darkness for the past three afternoons in the determination to overcome past mistakes, and went through a light session of tapering-off exercises today which left them keen and

guard who has been confined for some days with a severe attack of nettle rash, donned a suit this afternoon and went through the program with lie mates. He will undoubtedly be able to play at least part of the game.

Bob Smith, a roving center whose fine performances this season have provoked reminiscences of the great Peter Pund, and the flashy little 135-pound halfback star, "Pinkle" Walden, are in first-class condition and prepared to put on the show of the season before the home folks totmorrow.

Both are sophomores, but they have shown themselvest plenty good, and when a sophomore with real football sense really sets out to go somewhere he usually arrives.

SEVEN YOUNGSTERS. And, speaking of sophomores, seven members of the Baptists' starting lineup belong in that category, graduates of the fine freshman team of 1929.

The team has shown that it has ability, notably in the 13-6 defeat of a strong Birmingham-Southern of the defeats it

outfit, and three of the defeats it has suffered interspersed with easy victories over Stetson and Southern were by the barest of margins.

In the games with Chattanooga and Presbyterian, dropped by 9-7 and 8-4 scores, respectively, Mercer had a clear edge in playing strength, losing only through the lack of a final scoring punch. The latent ability is there, and if it is to come out again this season it must be tomorrow. season it must be tomorrow. NEED RESERVES.

Lack of capable reserves is the main problem facing Coach Russell. but the first team, though light, is fast and well-trained.

With the spirit that will be behind them in this game evidenced by the fact that every Mercer student is wearing a "beat Oglethorpe" badge and by the splendid "pep" luncheon given by the Civitan Club here today they are certain to stick in there and give the visitors everything they have in stock come Saturday afternoon.

"Pa" and W. L. Stribling and Atlanta Sports Writers Attend Civitan "Pep" Luncheon.

MACON, Ga., Nov. 21.—Macon's Civitan Club added impetus to a rising tide of football spirit which Macon hopes will reach the Mercer football team and aid it in sweeping Oglethorpe from the field here Saturday afternoon when the two teams meet.

At a delightful luncheon today the Macon Civitans entertained visit-

ing sports writers from Atlanta, officials of Mercer University, "Pa" and stay, received a severe wrench to his W. L. Stribling, Lake Russell, coach of the Mercer Bears, and others in-

or eleven which has won all its games and is certain of a tie at least for the Big Ten championship.

One popular slant has been to describe the contest as a struggle between two well known systems of offense, the shifting backfield of Notre Dame versus the double wing back style used by Northwestern. The inference is that victory by Notre Dame will prove the superiority of the shift over all other systems, and victory by Northwestern the superiority of the double wing back.

This is all bunk. The team that wins at Evanston will do so not because it uses one style of offense or another, but because it has the better personnel.

Oglethorpe is the favorite Saturday might bring victory.

Lake Russell, speaking for his team. Macon's hospitality, as usual, was usual, was their traditionally bitter fights to win.

Macon's hospitality, as usual, was the fight of their lives in an effort to close out the season with a victory. The Macon Civitan Club, one of the finest civic organizations in the state, has been of great aid to Mercer and to the city in keeping alive a foot-solini" of presiders. This led to a battle of wits between the two which was finally called a draw. For a time it appeared that W. L. Stribling, leading contender for the heavyweight title, would be called on to settle the argument, but because it has the better personnel.

Anderson, Baker, Woodward and Gilliard are to get the starting assignments in the ball-carrying department against the Bears, but not one of them is in really good condition, and the stock of reserve material is at a woefully low ebb.

Ray Walker, brilliant sophomore quarterback who is still operating under the handicap of a bad knee, is certain to see some service, and it is probable that Gordon Rainwater, who started out his grid career as a lineman, will also be called upon to relieve one or other of the battered regulars.

S. I. A. A. Teams Carry on Wars an Conference Leaders Rest.

By The Associated Press.

Five S. I. A. A. engagements are booked with five other association teams playing outside the loop. Two games are arranged between confer-ence teams, with three other elevens-playing non-conference foes.

At Nashville, Vanderbilt and Au-At Nashville, Vanderbilt and Auburn resume a rivalry dating back to 1893, with Vanderbilt a heavy favorite. There were indications that Coach Dan McGogin would start Vanderbilt's reserves. North Carolina State and South Carolina come to grips at Columbia, S. C. in the last game of the year for the North State Wolfpack.

Centenary, one of the few unbeaten teams in the S. I. A. A., risks its rec-ord against Louisiana Tech at Ruston. Other association games bring together Fastern and Western Kentucky at Richmond: Wofford and Erskine at Spartanburg: Southern and Stetson at Deland, and Birmingham-Southern and Howard in their annual city clash.

Centre travels to Manhattan, Kan., to face Kansas Aggies, a team coached by the "Praying Colonels'" former star quarterback, Bo McMillan, Ran-dolph-Macon engages Drexel in Phila-delphia. Maryland hopes to avenge its defeat by the Navy in their last meeting in 1917 as these teams meet at Annapolis.

Sewance closes its season against. Couthwestern in Memphis and Duke continues its drive for state honors against Wake Forest at Wake Forest. Other games include The Citadel and Furman at Greenville, Louisville at: Earlham at Louisville.

The Oglethorpe-Mercer game at Ma-on looms as one of the best of the tinor engagements.

In their first game, the freshmen defeated the juniors handily, but were nosed out in the return game by the score of 6-5. There was much dispute about this last game, for in the closing minutes of the game the freshmen made a first down on a penalty, thus tieing the score. The rules being consulted, it was found that a first down accredited a team as a result of penalizing the opposing team does not entitle the benefited team to a point, under the new scoring rules.

THE COMBINATION of Chris Cagle and Benny Friedman, of the New York Giants, facing the Green Bay Packers at the Polo grounds Sunday, should make one of the best contests of the year in professional football. Harvard and California have had two of their worst years, but they may be entirely different teams today. And if all four teams were terrible, which they are not, the crowds would still be as large and the excitement just as keen. This means something more than scrapping for a championship when you approach it from the angle or play. California has almost no chance to beat Stanford, but Harvard has practically an even chance against Yale.

W. B. HANNA.

IN THE DEATH of W. B. Hanna the sport page loses one of its finest writers and one of its best influences. Bill Hanna was not only a

master of flawless English, but, in addition, his judgment was always sound and you could depend upon him for all the needed facts.

Bill Hanna was one of the rare characters of his profession.

He, had strong likes and dislikes, but he never permitted any prejudice to interfere with his appraisal of the situation. When Bill wrote something, you knew it happened just that way. He always made a point of checking up later on any problems that may have come up to be sure he had the correct answer in his paper next day. His reports, especially of baseball and football games, were not only classics, but perfect pictures of what took place.

He was a friend worth knowing, with an opinion that always carried the deepest respect. As the years move by the old guard hurries into the shadows, leaving only wraiths and memories.

THE REPORTS COME IN.

DEAR SIR:—Please, please get the Pacific coast right on football this year. And don't hand Notes Personal Coast right on football this year. And don't hand Notre Dame any national championship until they have beaten Southern California. I have seen this Southern California team play more than once and I'd like to say that Southern California may beat Notre Dame as badly as it beat Pittsburgh New Year's Day. I have followed football 30 years and never saw such an offensive drive as they have shown. STANFORD HOLDS ROPER FAVORS BACKFIELD EDGE YALE IN CLASH **OVER CALIFORNIA**

Trojans Are Given Two- Lack of Capable Reserves Touchdown Margin by Coach Jones.

By Howard Jones,

Stanford won last year and although neither team is as strong as it was then, Stanford appears to have about the same edge as was the case then when the score was 21 to 6. From a California standpoint much depends on the condition of certain men who have been laid up with injuries. If the Bears are able to put their full strength on the field, the game may be very close.

Brown is too strong for New Hampshire, and Fordham will have little difficulty in winning from Bucknell. Haverford should win from Delaware. The Lafayette-Lehigh game is always interesting. I figure it will be very close this time.

There should be a corking game at Annapolis, where Maryland meets Navy. I favor the Navy, by a close very close.

N. Y. II. should defeat Rutgers, and STANFORD HAS EDGE.

very close.

The only other Pacific Coast conference, Occidental and Pomona meet in their annual historic game. Neither team has done very well this season, but can close the year with a feeling of satisfaction by winning this particu-lar contest. Occidental appears to

have an offensive edge.

IMPORTANT GAMES.

There are a number of important Thanksgiving day games on the Pacific coast. Washington comes to Los Angeles to face Southern California, and I look for this to be one of the best games of the year. We lost to Washington State, 7 to 6, and Washington also lost to the same team, 3 to 0, which ought to indicate how close our game should be. Washington has a powerful line and a fine

close our game should be. Washington has a powerful line and a fine back in Hufford, who is only just beginning to hit his stride after a season interrupted by injuries.

Perry Ballard won a decision over Charles Hollingsworth, Harry Berman was outpointed by Joe Rosenberger, Billy Campbell beat David Johnston to a decision, George Wells beat Bobby Lipshutz and Raymond Gould won over Erwin Zaban.

An offensive and defensive scrimmage against the Freshman-Red Devil team is set for Saturday afternoon at 2 o'clock. The Bulldogs will get their first hard scrimmage tomorrow and will be given a rest over Sunday.

What the Market Did.

BY JOHN L. COOLEY. NEW YORK, Nov. 21.-(P)-Stocks, wheat and corn all took cournge from the absence of important selling pressure today and moved rather onfidently higher.

Shorts in the railroad shares got

Shorts in the railroad shares got a red light in the last 15 minutes of trading on the stock exchange. They backed up so hurriedly that those issues piled up the best gains in weeks and the entire market was jolted out of a profit-taking decline. Final prices were 1 to 5 points up, which meant a new high for the recovery.

The later rally in rails came swiftly and mysteriously, sending several of the stocks 2 to 5 points higher. It was based, perhaps, on a belief that October earnings, now beginning to appear, would show considerable improvement over September. Chesapeake & Ohio, one of the first to report, disclosed a small gain in net operating income over October of last year. In addition, a financial news agency carried an announcement that western carriers had been holding conferences in regard to a move for higher rates, a development which confirmed a growing belief that the railroads were contemplating a stand in their own behalf.

Some News Unfavorable. Accretions to the list of bank closings in the interior failed to cause a ripple in stock market quarters. Other news that might have been construed as unfavorable included a decline in construction contracts for the week ended November 14, a sharp gain in commercial failures for this week and the inability of the weekly trade reviews to report much, if any, tangible improvement.

the improvement.

The stock market, however, seemed committed to the advance. Prices displayed familar heaviness in the early dealings, but soom were back on the upgrade, with United States Steel.

American Telephone and American Can reaching new highs for the rally.

Motor and accessory shares, as well as specialties and chemicals, figured prominently in the movement which reached its peak at mid-afternoon. Profit-taking in the last hour was quickly arrested by the strength of the rails and the entire market was again on the rise at the close, although final prices for the industrials and trillities were under the day's best figures.

figures.
The improvement in wheat futures, amounting to slightly more than a cent a bushel ou the average, was reported to have been accomplished with little or no help from stabilization buying. Export demand was better and the market was also helped by unfavorable weather in Argentina. Corn gained about a cent in response to smaller receipts and firm south-west markets. Cotton here was a trifle easy, closing unchanged to 9

Scarce Offerings. Scarce Offerings.

The spectacular rally by the rails had the appearance of a professional move. Shorts who sought to coyer found offerings scarce and had to bid actively. The Cheaspeake & Ohio railroad reported an increase of \$121.249 in net operating income for October over the like month last year. Net operating income last month was \$4.456.713. against \$4.435.64 for the corresponding month of 1929. The figures included the Hocking Valley railway.

Dividends.

NEW YORK. Nov. 21.—Directors of the St. Louis. Southwestern Railway Company today omitted the regular quarterly dividend of \$1.25 a share on the preferred stock. "Within the past few years," a statement said, "the company has been engaged in a very extensive rehabilitation of its property and equipment and is in the best physical condition in which it has ever been. During the first six months of the year there was a relatively small decline in traffic on its lines. Beginning in July, however, an unprecedented drouth in the states served by its lines made itself felt and since September the decline in traffic due to the drouth and general depression has been substantial.

continued liquidation of December, but after selling off to 10.76 for that position and 11.48 for May the market turned steadier on covering and trade buying. Spot interests seemed willing to buy the December at prevailing discounts as compared with later months, while it looked as if the early decline had carried the trade into some trade buying limits.

The liquidation of December longs became less active and that delivery sold up to 10.85, while May advanced to 11.54 during the early afternoon. This carried the market back to or a shade above yesterday's closing quotations, but the narrowing of the December late-month differences seemed to bring in some renewed liquidation of the near position. Offerings increased in the last half hour when there was a little southern hedging as well as liquidation or resembler closed at 10.78 and May at 11.45 and final quotations were with in a point or two of the lowest.

BY DONALD C. BOLLES.

NEW YORK, Nov. 21.—(P)—A
pronounced lower trend developed in
foreign bonds today as pressure was
renewed against German bonds.

Nervous selling apparently inspired
by the remarks of Foreign Minister
Curtius concerning the provisions for
a moratorium under the Young plan
depressed the international 51-2 per
cent loan 2 points, and contributed to
the unsettlement which affected both
European and Latin American issues.

While financiers have pointed out
that neither the principal nor interest of the bond issue offered last June
would be in any way affected by a
moratorium, the 61-2s closed at the
hottom price of 681-2. German 7a
yielded 3-4. German bank issues sagged 1 and 2 points and scattered selling brought sharp dips in Berlin municipal and industrial obligations.

In the Latin American section, some

ing brought sharp dips in Berin municipal and industrial obligations.

In the Latin American section, some of the prominent issues of Argentina. Bolivia, Chile, Colombia, Peru, and Uruguar showed sharp declines. Brazilian 61-2s dipped 21-4. Argentine 6s of 1959, Colombian 6s. Buenos Aires provincial 61-2s, Rio Grande do Sul 7s and 6s. Sao Paulo 7s, Peru first and second 6s were others under pressure. Montevideo City 6s reacted 141-4 points on a few sales.

Trading in domestic bonds was desultory most of the day and prices barely steady on narrow fluctuations. United States governments again were in strong demand. Liberty 31-2s, first 41-4s, fourth 41-4s, and treasury 33-4s all touched new high figures for the year. The treasury issue which is not one of the most active in the government list sold 10-32nds higher.

Chesapeake and Ohio 41-2s were in procedure of

10-32nds higher.

Chesapeake and Ohio 41-2s were in good demand following publication of the company's earnings, and railied 7-8. Missouri Pacific General 4s, Nickel Plate 41-2s. Pennsylvania 41-2s. Texas and Pacific first 5s, were among other rails that were firmer.

A 9-point rise in Anglo Chilean Nitrate 7s was a conspicuous feature of the irregular movement of industrials. Several stock privilege issues moved upward with the share market, namely American National Gas 61-2s. Atchison 41-2s, Pathe 7s, and Utilities Power and Light 5s. Warner Brothers 6s were weak.

Advances were wide in a tew of the industrials and specialties reflecting primarily the thin market in those issues. Aluminum Company of America rose 12 points. H. C. Bohack advanced 7 points, in response to an extra dividend of \$1. Crown Cork International, Mead Johnson, New Jersey Zinc, Northwest Engineering and Westmoreland Coal all gained 2 or more. Ford Ltd., rose about a point. Deere, however, dropped nearly 3, then ceduced its loss to 1. Johnson Motor recorded a new low at 8 3-4, and Axton Fisher lost nearly 5 points.

Utilities worked higher, and these issues remained the center of activity, particularly Electric Bond and Share, which rose 2 points to get above 50 again. It closed at 50 3-8. American Gas gained nearly 3, and Associated Gas A, rose a point. American Light and Traction moved contrary to the trend and closed off 2 points.

Oils were mixed. Kentucky and Vacuum gained about a point. Indiana and Cities Service closed about steady, after sagging a little for a time. Gulf lost 2 points. Coppers were neglected. In the holding company and investment trust group, Pennroad rose a point in sympathy with rails on the big board. Goldman Sachs closed up 1-4, and United Founders closed unchanged.

for Tarzan. After hearing the details of the plot against her, the High Priestess made her decision— and her plans. In line with Dooth's warning, there soon came to the apartments of the queen a young priestess who was the sister of Oah. Even before she had spoken, LA knew she was an emissary of Cadj. And that the treachery of which Dooth had warned was already under way. The girl was abashed in the presence of the High Priestess, and it was some time before she could speak her in-

The effect of these words upon the girl were just what LA had anticipated. Disappointment and chagrin were written on the face of Cadj's messenger. When she had left the presence of the High Priestess, LA could scarcely restrain a smile. She had no intention of sacrificing Tarzan, but this, of course, the sister of Oah did not know. So she returned to Cadj and repeated all that LA had said. The High Priest in his turn was filled with angry disappointment. And Oah, who was present, raged up and down, furious at the failure of this plot to trap LA.

The closing of three more banks in western North Carolina today brought the total of financial institutions in this section suspending business in the control of California. this section suspending business in

the past two days to ten. Seven of the banks closed yesterday, following failure of the Central Bank & Trust Company, of Asheville, fourth largest single bank in the state, to

American Exchange bank, of Asheville: the First Bank & Trust Company, of Tryon, and the Citizens pany, of Tryon, and the Citizens Bank & Trust Company, of Waynes-ville. The American Exchange bank had deposits of \$2,000,000 on Sep-tember 24, date of the last bank call. The Tryon bank had deposits of \$165,-000 at that call. The Waynesville bank was capitalized at \$50,000, and as of September 24 listed deposits at \$283,251.47.

THREE MORE BANKS

SUSPEND IN TENNESSEE NASHVILLE, Tenn., Nov. 21.—(P)
Three banks in Tennessee failed to open today, bringing to seven the number that have closed this month.
Two of the banks assigned steady withdrawals within the last few days as the reason, while the third, the First State Bank & Trust Company, at Paris whose statement last July At Paris, whose statement last July showed resources of more than \$1,000,000, announced that withdrawnls had been heavy since June, when the railroad shops there began re-

ducing their forces.
The People's bank of Lenoir City, with resources approximating \$250, 000, and the People's Bank & Trust Company, a negro institution in Nash-ville, were the other banks turning their affairs over to the state banking department. The negro bank announced that it had resources of more than \$300,000 and deposits totaling around \$223,000.

Banks in English, Leavenworth, Coyrdon and Coyrdon Junction, all small communities in southern In-diana, were taken over by the state banking department Friday. A small bank at Collins, Miss., also closed

during the day.

KENTUCKIAN ARRESTED FOR FALSE RUMORS LOUISVILLE, Ky., Nov. 21.—(P) The first arrest under the state law making it a felony wilfully to circu-late false rumors about banks came oday, along with optimistic state-nents from state officials about Louis-ille banks.

The Stock Yards bank caused the

arrest of Albert Ivison, 52, on a war-rant charging he had advised local store managers late yesterday the bank had closed. Ivison, quickly re-leased in \$500 bond, expressed regrets

and said he had been misinformed and had done "everything humanly possi-ble" to correct the mistake, Officials of the Stock Yards bank, which was doing business as usua today, said it was in good shape and not connected with any of the closed banks here, and not affected by the

ank situation. In connection with appointment of receiver for the Louisville Trust ompany, one of the larger of nine anks closed in this county since Monday, Attorney-General Cammack said in court "It's assets will be held intact and its trust business carried

so it can reopen."
W. A. Dicken, deputy state banking commissioner, expressed the opinion it would pay off almost dollar for dollar. He added that he felt confidence in all other Louisville banks and that if he had had any doubt about any Louisville banks still about any Louisville banks still oper they would have been closed before

today was the Hopkins County bank at Madisonville, with deposits of \$696,000, which did not open. Its officials said it had been closed to

BRITISH BANKER ASKS DEBT CUT

LONDON, Nov. 21.—(P)—F. C. Goodenough, chairman of Barclay's bank—one of England's "big five" banks—told a banquet of the Guild of Freemen tonight that the time had come to bring pressure upon governments in dealing with war debts.

He added that if the war obligations were not to be cancelled outright they should, at all events, be adjusted to a basis varying with the price levels of commodities.

"This must have the effect of lift-"This must have the effect of lifting a great burden off the shoulders of the world," he said. "Indirectly. England, America and the whole world would gain enormously by some plan that would deal with war debts under altered conditions arising out of the fall of world prices."

To the Citizens of Fulton County

Please Read James, 5th Chapter; 1-6 Verses.

Come now ye rich, weep and howl for your miseries that are coming upon you. Your riches are corrupted, and your garments are moth eaten. Your gold and silver are rusted; and their rust shall be for a testimony against you, and shall eat your flesh as fire. Ye have laid up your treasure in the last days. Behold, the hire of the laborers who mowed your fields, which is of you kept back by fraud, crieth out; and cries of them that reaped have entered into the ears of the Lord of Sabaoth. Ye have lived delicately on the earth, and taken your pleasure; ye have nouriabed your hearts in a day of slaughter. Ye have condemned, ye have killed the righteous one; he doth not resist you. Respectfully,
